Caregiver Consent for Child COVID-19 Symptomatic Testing

The Ithaca City School District will conduct a COVID-19 symptomatic testing program throughout the 2022-2023 academic year for students who become unwell at school. School nurses will use antigen test kits provided by the NYS Department of Health. Sampling requires a swab just inside the nose. Testing is provided to participating students at no cost.

Student participation in the testing program is voluntary, and the Ithaca City School District is requesting that parents/caregivers complete a consent form as indicated below to allow their children to be tested for COVID-19 at school. We will not test your child without your consent.
