Re: Cooperative Purchasing Art Supply Bid Awards #2020-101

Results & Awards:

The bid resulted in the receipt of 5 bids. The bid committee meet on March 18, 2020 to make recommendations for award. The committee discussed to award the bid by different methods, some ways was to look at the top 2, 3 and 4 vendors providing the lowest bid with a majority of the items being bid. A total award to one vendor would leave to many items with no bid prices at increased prices. The consensus from the committee was to award to the top 3 vendors with awards to a few specialty items to one other vendor. After reviewing the bids in more detail Cascade School Supplies had a \$50 minimum order amount which'd deemed their bid unresponsive. Some of the specialty items that were offered that were at a much better price than the other vendors. All other vendors had offered no minimum shipping. In the best interest of the Districts the bid was awarded to the top 2 vendors and the handful of specialty items to Sheffield Pottery.

On April 22, 2020, the BOCES Board of Education reviewed the bid award recommendations, and approved and awarded the bids.

Please see the attached "Art Supply Bids Awards" in a PDF format. These are the results of the bid award recommendations. Any district in the service may take advantage of this award, even if the district did not participate in the initial requisitioning of items. The vendor award contact sheet will give you additional information regarding the awarded bidder, such as the address, phone number, contact person, etc.

Discounts:

Several of the vendors offered discounts off their website or catalog. These discounts are listed on the vendor summary sheet. Not all vendors offering a discount are listed, only the vendors that offer specialty items are listed. It is highly suggested that if the item is not found in this bid that you search for the item utilizing the discounts from several vendors to ensure that you are getting the best possible price. Sometimes a 15% discount from one vendor is better than a 20% discount from another vendor. Please review the discount analysis for further information.

Reports & Export / Import Files:

You should receive the following reports shortly. These reports will be sent to you prior to producing the PO Attachments or exports for WinCap , NVision or FM. Please review these reports and make any changes necessary as soon as possible. These reports will be produced for each bid type.

1. District Summary – this report shows the purchase detail of every requestor at your district. Similar to the PO Attachment in information except that the vendor is not listed.
2. Initial PO Attachments. This is sent to show the detail of each order for amendment, if needed.
3. No Bid Items, This PO Attachment sheet shows the items that were submitted by a district requestor through the requisition Portal which did not receive a bid. These items are listed on the sheet with a cost of \$.01 (to produce the information we need to apply a cost), these items should be reviewed. **If you do not receive any sheets it means everything that was added to the bid database received a bid will appear on the PO Attachments.**

4. TDB Items, these items will appear on PO Attachments with Prefix letters which will identify what the items is. You may need to quote, order, or hold these items. Prices on these PO Attachments are not accurate. In our review of some items we have found that the prices submitted by the teachers were not correct. This may be due to using an out of date catalog or by mistake.

If you see any price that shows as \$0.00 or no Vendor on any reports or online this means the item in question did NOT RECEIVE A BID. The item was either discontinued or not available from the vendors. The No Bid items may have a suitable substitution within the bid awards.

Purchase Order Attachment Information:

The final “P.O. Attachments” and the district ordering summary will be sent to you in a PDF file once we have your final approval that all changes have been made and the information is good. The PO Attachments will show the items that are to be purchased from each award bidder, by each district requisitioner. The P.O. Attachments are like a Purchase Order Request, they list the items awarded; bid price, and are printed by Vendor for each requisitioner (teacher). The PO Attachment header information includes:

- ❖ The Vendor name, address and code;
- ❖ The Requisitioners’ name; School and Address [ship to and bill to addresses, in some cases, may be different].

The body of the report lists all the items that the district’s requisitioner requested that were awarded to the vendor listed at the top of the page. Each line item lists the quantity originally ordered or adjusted, item number, vendor product number, description, unit of measure, unit price and extended price. Alternate brand or unit of measure has been written into the original specification.

It should be noted that in some cases the original amount ordered will be adjusted to reflect the updated alternate unit of measure. For example, if the original unit of measure was “each” and the item award has a unit of measure of 12, a teacher originally ordering 12 will see an order on their PO Attachment for 1, which reflects the awarded alternate unit of measure.

The P.O. Attachment frequently becomes an attachment to a Purchase Order, making separate typing of POs unnecessary. Some districts simply type one purchase order for each awarded vendor with the total dollars being the aggregate of all the P.O. Attachments for that awarded vendor. A request to “see attached P.O. Attachments” is added to the PO. Vendors are aware that they are to pack and mark per teacher and invoice separately if requested, at no extra charge. There are no fuel surcharges, handling fees or shipping costs allowed on any invoice.

It should be noted that this year we bid all the items, including the add-on items. This means that 98% of the items captured during the requisition process should be either exported or on a PO Attachment with a bid price. However, if you should see any items with a \$.0 or \$.01 price, it means the item did NOT RECEIVE A BID. No bid items will be sent back to you for further processing.

TDB items will be provided on a PO Attachment. Some of these PO attachments will reference a vendor. This is the vendor that the teacher indicated was where they pulled the information from. Therefore, the item number (less the prefix) and the pricing, is from that vendor’s website or catalog. Any PO Attachment with TDB – No Vendor means that the teacher did not provide a vendor for purchase.

WinCap

NOTE – WE WILL BE COMBINING THE FOLLOWING BIDS TO FACILITATE ORDERING SINCE THESE BIDS TYPICALLY HAVE THE SAME AWARDED VENDORS: These combined files will be available along with the separate files so Please only import one or the other file, DO NOT IMPORT BOTH FILES. – If you want separate imports please let me know.

**Combined Files: School / Office Supply Bid - 2020-100
Art Supply Bid – 2020-101
Learning Resources - Special Education Bid – 2020-106**

Because these bids are combined, you may need to adjust the PO Text to include information

On all the bid numbers and reference numbers that may be required. This can be easily done in WinCap within the Catalog Maintenance area under the Order Text PO Header or Footer area.

These bids will also be available separately – **DO NOT IMPORT BOTH TYPES OF FILES**

We have developed a few export/import files for use with WinCap that will facilitate the purchase order function. WinCap has the capacity to import our bid award Catalog, along with the requisitions collected from our website. WinCap has a Universal Import for Purchase Orders, which we have been able to utilize with the help of WinCap to import the data extracted from the PO Attachments produced by our Software package. This file is then imported into WinCap along with the bid awards, U/M and vendor imports. If you would like to utilize this import function please call or email me. **DO NOT CALL WINCAP.**

The exports will be available, after the online requisition is closed down and final changes are made, That date is to be Announced. If you need the exports sooner, please let us know. Otherwise, these exports are available immediately.

Finance Manager – Nvision

NOTE – WE WILL BE COMBINING THE FOLLOWING BIDS TO FACILITATE ORDERING SINCE THESE BIDS TYPICALLY HAVE THE SAME AWARDED VENDORS: If you want separate imports please let us know.

**Combined Files: School / Office Supply Bid - 2020-100
Art Supply Bid – 2020-101
Learning Resources - Special Education Bid – 2020-106**

**Because these bids are combined, you may need to adjust the PO Text to include information
On all the bid numbers and reference numbers that may be required.**

We have a workable download for Finance Manager and Nvision with the capability of importing the same information as above into their financial package. However in order to make this work properly we need to have the building code and budget code for each end user built into our system before exporting the file. Please call if you want to receive the export files.

Please note that if you are using Nvision files can be imported into your program, however, you will need to send the file to Finance Manager first in order to have them configure the file into a format that can be imported into the program. This function will take approximately 2 weeks, so please factor this time into your schedule. Files will need to be sent to Ralph Scorza rsorza@financemgr.com

SUBSTITUTED ITEMS:

The vendor **must** supply the products to our original specification unless the vendor otherwise offered an alternate brand which was accepted and awarded. The alternate brands awarded are listed on the award sheets within the descriptions. Alternate unit of measures were also updated within the item's specification.

SHIPPING NOTES:

In the past, we have seen PO Attachments generated for as low as \$0.40, which causes not only a problem for the vendors, but a problem for school districts as well, since districts may create a purchase order for each PO Attachment. **Please try and maintain this ordering amount by combining small orders.** For example, if all your first grade teacher orders are under \$25.00, these orders should be combined to meet the minimum order.

Basic Instructions:

1. It is suggested that you go through the District Summary sheet to audit them for correctness. In some cases, looking at the total amounts on the District Summary may give you some indication of a problem. This should be done before we produce the PO Attachments or exports. Please also review the any Add-on Excel sheet you may have receive, these items should be at a minimal amount.

IMPORTANT

2. The P.O. Attachments will be issued once we have your approval. These reports are separated by Requisitioner. Please check and make sure you have a P.O. Attachment for each Requisitioner.
3. Check P.O. Attachments for small orders under the minimum amount of **\$25.00**. These orders should be combined, so that the minimum order amount is reached.
4. If you need to make any deletions or additions to the P.O. Attachment(s), please make them by placing a line through the quantity, and writing “delete” or the new amount required. **DO NOT** cross out the BOCES Item Number. Fax or scan & email these changes to us at 607-334-9848. A new P.O. Attachment will be issued with the updates within two days of receiving the requested changes. Changes to the P.O. Attachments may be made at any time and for any reason. If you want to utilize the online web portal for additional ordering please let us know. The Web Portal will be closed on April 25, 2020. If you the site opened later than this date please call us.
5. You may receive a Purchase Order Attachment that has **no vendor listed at the top**, this report shows items that are “**no bid items**”. [Please refer to the “No Bid Items Report” for complete descriptions of these items]. There may be several reasons for an item appearing on this report, some which may be because the item was discontinued or there were no bids were received. Requisitioners should review these sheets and either, research the item to see if it may be available from the awarded vendor or find a substitution in the bid or catalog. If the items are available; the vendor’s name, product source number and price (with discount taken, if applicable) may be written on the top of the PO Attachments and used in the same capacity as a normal Purchase Order Attachment.
