COOPERATIVE PURCHASING SERVICE

BID AWARD RESULTS

FOR

SCIENCE SUPPLY BID #2020-102

Prices expire March 30, 2021.

COOPERATIVE PURCHASING SERVICE

BID AWARD INFORMATION

To: Participating Districts

From: Deb Bestwick,
Cooperative Purchasing Agent

Date: May 7, 2020

Re: **Cooperative Purchasing award results for:**

Science Equipment and Supply Bid #2020-102

On April 22, 2020, the BOCES Board of Education reviewed the bid award recommendations, and approved and awarded the bids.

The attached "Successful Bids" sheets are the results of the award of the bids. These sheets list each item that was on the bid and references the awarded bidder, bid price, vendor product number. Any alternate information is found within the actual item description. This means that if an alternate brand was accepted and awarded, the alternate brand has become the item's description for this bid cycle. If you need additional information on an item, in most cases, the item can be found on the awarded vendor's website by using the vendor product number to conduct a search for that item number within the vendor's online catalog.

The bidder **MUST** provide the item to the brand and model listed within the item's specifications. Please let me know if any item is received that does not match the brands listed on the award sheets.

Also attached is the "Awarded Vendor Detail" sheet. This sheet will provide you with pertinent information regarding the address, phone number, website and contact person for each awarded vendor, along with a discount being offered for additional items which were not listed on the bid.

Please make sure that the appropriate bid number appears on each purchase order sent to the awarded, corresponding vendor.

Districts that participated in the Bids will be sent the "Purchase Order Attachments" for the items requisitioned. These sheets will be sent as a PDF file. The PO Attachments show the items that are to be purchased from each awarded bidder, by Requisitioner. These sheets may become an attachment to a purchase order, making separate typing unnecessary. District's that utilize the WinCap or Finance Manager imports will be sent the import files after the requisitions have been approved for export. The import files will be available after May 15, 2020, when the online

requisition is closed down. If you need the imports sooner, please let me know. The April 25th date is only for requisitions being amended online at our website. Otherwise, these imports are available immediately.

Please note that if you are using FM NVision you can import to this program, however, you will need to send the file to Finance Manager first, in order to have them configure the file into a format that can be imported into the program. This function will take approximately 2 weeks, so please factor this time requirement into your schedule.

Please note: Purchase Order Attachments with **No Vendor Name Listed** at the top are a notification that those items that did not receive a bid and therefore must be purchased outside bid award. Since these items were not available from the bidders; it is possible that the item is obsolete and no longer available. It is suggested that your teachers/nurses review the available items that were awarded for a suitable substitution, or utilize the discounts provided on the Awarded Vendor Detail sheet to obtain a price from one of the vendors. Since we included a good portion of the “Add-On Items” the amount of “No Bid Items” should be minimal. However if you should see any items with a \$0.00 price, it means the item was NOT BID. No bid items will be sent back to you on PO Attachments as stated above for further processing.

TDB items are items that did not get bid for various reasons, these items are discussed on the Add-on Sheet. Additional information is listed within the School / Office bid instructions.

Vendor Product Number

Each awarded item should show the vendor’s product number in the “Vendor Item #” area on the bid award PDF or excel sheet. To view the awarded item, go to the vendor’s website and place the vendor’s product number in their website’s search engine.

Alternate Items

Any item awarded with an alternate pack size has had the original pack size in the specification changed to reflect the awarded pack size.

Please also note, that these changes in pack size are reflected on your PO Attachments. For example, if you ordered 12 of an item and the awarded unit of measure is by the dozen, then your PO Attachment will reflect an order for 1, since 1 now equals a dozen or 12.

The variance form and procedure is available on the website for your review and use should you have a problem with the quality or delivery of any item awarded on this bid. Please review the variance procedure before filling out the variance form.

If you should have any questions or concerns, please do not hesitate to call me at 607- 335-1262 or email me at bestwicd@dcmoboces.com.

Thank you,

Science Bid Award and Discount Summary

COOPERATIVE PURCHASING SERVICE

BID AWARD INFORMATION

To: Participating Districts

From: Deb Bestwick,
Cooperative Purchasing Agent

Date: May 7, 2020

Re: **Cooperative Purchasing award results for:**

Science Equipment and Supply Bid #2020-102

On May 6, 2020, the BOCES Board of Education reviewed the bid award recommendations, and approved and awarded the bids.

The attached “Successful Bids” sheets are the results of the award of the bids. These sheets list each item that was on the bid and references the awarded bidder, bid price, vendor product number. Any alternate information is found within the actual item description. This means that if an alternate brand was accepted and awarded, the alternate brand has become the item’s description for this bid cycle. If you need additional information on an item, in most cases, the item can be found on the awarded vendor’s website by using the vendor product number to conduct a search for that item number within the vendor’s online catalog.

The bidder **MUST** provide the item to the brand and model listed within the item’s specifications. Please let me know if any item is received that does not match the brands listed on the award sheets.

Also attached is the “Awarded Vendor Detail” sheet. This sheet will provide you with pertinent information regarding the address, phone number, website and contact person for each awarded vendor, along with a discount being offered for additional items which were not listed on the bid.

Please make sure that the appropriate bid number appears on each purchase order sent to the awarded, corresponding vendor.

Districts that participated in the Bids will be sent the “Purchase Order Attachments” for the items requisitioned. These sheets will be sent as a PDF file. The PO Attachments show the items that are to be purchased from each awarded bidder, by Requisitioner. These sheets may become an attachment to a purchase order, making separate typing unnecessary. District’s that utilize the WinCap or Finance Manager imports will be sent the import files after the requisitions have been

approved for export. The import files will be available after May 15, 2020, when the online requisition is closed down. If you need the imports sooner, please let me know. The April 25th date is only for requisitions being amended online at our website. Otherwise, these imports are available immediately.

Please note that if you are using FM NVision you can import to this program, however, you will need to send the file to Finance Manager first, in order to have them configure the file into a format that can be imported into the program. This function will take approximately 2 weeks, so please factor this time requirement into your schedule.

Please note: Purchase Order Attachments with **No Vendor Name Listed** at the top are a notification that those items that did not receive a bid and therefore must be purchased outside bid award. Since these items were not available from the bidders; it is possible that the item is obsolete and no longer available. It is suggested that your teachers/nurses review the available items that were awarded for a suitable substitution, or utilize the discounts provided on the Awarded Vendor Detail sheet to obtain a price from one of the vendors. Since we included a good portion of the “Add-On Items” the amount of “No Bid Items” should be minimal. However if you should see any items with a \$0.00 price, it means the item was NOT BID. No bid items will be sent back to you on PO Attachments as stated above for further processing.

TDB items are items that did not get bid for various reasons, these items are discussed on the Add-on Sheet. Additional information is listed within the School / Office bid instructions.

Vendor Product Number

Each awarded item should show the vendor’s product number in the “Vendor Item #” area on the bid award PDF or excel sheet. To view the awarded item, go to the vendor’s website and place the vendor’s product number in their website’s search engine.

Alternate Items

Any item awarded with an alternate pack size has had the original pack size in the specification changed to reflect the awarded pack size.

Please also note, that these changes in pack size are reflected on your PO Attachments. For example, if you ordered 12 of an item and the awarded unit of measure is by the dozen, then your PO Attachment will reflect an order for 1, since 1 now equals a dozen or 12.

The variance form and procedure is available on the website for your review and use should you have a problem with the quality or delivery of any item awarded on this bid. Please review the variance procedure before filling out the variance form.

If you should have any questions or concerns, please do not hesitate to call me at 607- 335-1262 or email me at bestwid@dcmoboces.com.

Thank you,
